April 1976

### EXPORTS OF U.S. BREEDING SWINE DOWN SLIGHTLY IN CALENDAR 1975

Exports of U.S. breeding swine totaled 13,982 head during calendar 1975, compared with 14,421 the year before. Crossbreed exports showed the biggest drop—only 220 in 1975 compared with 1,308 in 1974. Yorkshire exports also dropped substantially—from 4,873 in 1974 to 4,137 in 1975. Some of these losses were offset by sales gains for several of the other breeds exported. For example, Landrace exports were up by nearly 700 head, and Duroc exports by nearly 300 over the previous year's totals. Except for the Berkshire breed, exports of all the other breeds improved in 1975 over 1974 levels.

Mexico continued to be the most important importer, taking nearly 30 percent of total U.S. breeding swine exports. Mexico's share was over 40 percent in 1974, about 30 percent in 1973, 20 percent in 1972, and two-thirds in 1971. Other countries of importance in 1975 and their imports were: Taiwan (2,591), Venezuela (1,496), Philippines (1,175), Singapore (763), Canada (752), Malaysia (695), and Japan (454). These eight countries accounted for over 86 percent of total U.S. breeding swine exports in 1975, and of these eight the top four accounted for over two-thirds of the U.S. export totals.

In 1975, Duroc was the most popular export breed with

4,300 head, and Yorkshire was a close second with 4,137. These two breeds have continued to be the leaders over the past 5 years. Yorkshire occupied first position three times, while Duroc was No. 1 twice in the last 5-year period. Duroc jumped into the lead in 1975 through a 179-head purchase by the USSR. This was the first purchase by the USSR since 1972, when it brought 19 head of Duroc.

The biggest decline in popularity in export sales was for Crossbreeds—down from a high of nearly 4,000 head in 1970 to 220 in 1975. The largest improvement in export sales was made by the Landrace breed. From a low of 212 in 1971, its sales surged past 1,600 in 1975.

Thirty-five States exported breeding swine in 1975. Two States, Iowa (2,890) and Illinois (2,522), accounted for nearly 40 percent of the U.S. total. Adding exports from the four States next in export sales—Missouri (1,876), Texas (1,324), Indiana (899), and Nebraska (844)—brings the total for the top six States to 10,355, or three-fourths of U.S. breeding swine exports in 1975. The remaining 29 States accounted for only about 3,600 head, ranging from the low to one from Tennessee to the high of 457 from Oklahoma.
